

## INSTRUCTIONS FOR SENDING THE CANOPY (ONLY IN FINLAND)

**When you are about to send an old canopy for a pattern inspection or fastener alignment, start by detaching the canopy from the arches. Rinse or wash the canopy to remove the worst dirt (especially loose dirt and bird droppings). Any patina formed over time cannot be removed from the canopy, but otherwise, the canopy should be cleaned. If the canopy is wet, allow it to dry before packing it for delivery.**

**Remember to include in the canopy package a note with your contact information and information about the boat model (make, model, year).**

You can send the canopy to us as a postal parcel.

Or, you can bring the old canopy to our factory. We are open on weekdays between 8 am and 4 pm.

Address: VA-Varuste Oy, Siikaranta 14, 70620 Kuopio

We have an agreement with Posti to have the parcels delivered to the factory. We do not offer a parcel pick-up option! Parcels directed to pick-up points will very likely be returned to the sender uncollected.

### **Sending a postal parcel**

Please send the package as normal postal parcel delivery. Do not send it to a parcel locker or pick-up point!

See more information: <https://www.posti.fi/palvelutverkossa/lahttaminen/#/>
